I. Welcome and Introduction
   Prof Chris Abell, Pro-Vice Chancellor for Research

II. Introduction to the Cambridge Centre for Circular Economy Approaches to Eliminate Plastic Waste
   Programme Overview: Prof Erwin Reisner, Department of Chemistry
   Work Package 1: Sustainable feedstocks and materials, Prof Paul Dupree, Department of Biochemistry
   Work Package 2: Manufacturing and recycling processes, Dr Adrian Fisher, Department of Chemical Engineering and Biotechnology
   Work Package 3: Tracking plastics material flows, Dr Jonathan Cullen, Department of Engineering
   Work Package 4: Waste and management - the circular economy, consumers’ agency and incentivising behavioural change, Dr Brigitte Steger (Faculty of Asian and Middle Eastern Studies)

   Coffee / Tea Break

III. Cambridge Clean Tech
   Stephen Bates, Director, Environmental Communications Consultants Ltd

IV. The Cambridgeshire and Peterborough Waste Partnership (RECAP)
   Bryony Rothwell, RECAP Partnership Manager, Cambridgeshire County Council

V. UK Government Policy Development on Plastic Waste
   Nicola Buckley, Associate Director, Centre for Science and Policy

VI. Quick Fire University of Cambridge PhD and Post-Doctoral Researcher Talks

VII. UK Circular Plastics Network
   Dr Sally Beken, Knowledge Transfer Manager, Polymers, Innovate UK Knowledge Transfer Network
   https://ktn-uk.co.uk/programmes/uk-circular-plastics-network

VIII. How to Get Involved and Next Steps
   Prof Erwin Reisner, Department of Chemistry

   Post Meeting Networking and Drinks
