ENERGY GENERATION
ENERGY STORAGE
EFFICIENT ENERGY USE

CAM-IES Early Career Workshop

Tuesday 3 September 2019

10 am to 5pm

Bancroft Building, Queen Mary University of London

MORNING SESSION:

Novel Characterisation Techniques

Talks by PhD students, postdocs and advanced fellows working on energy materials about novel characterisation techniques that they have developed.

Call for Abstracts

Are you a pioneer or early adopter of a novel characterisation technique for studying materials for energy applications? Submit an abstract for a talk or poster to promote your technique!

Travel Bursaries for Presenters

CAM-IES will reimburse travel expenses of all speakers and poster presenters who are travelling to the workshop from outside London. Please see the CAM-IES web site below for details.

AFTERNOON SESSION:

Career Development Talks

Dr Tracey Clarke

UCL

“How I got my lectureship”

Dr Tom Macdonald

UCL

“How I got my
research fellowship”

Dr Jess Wade

Imperial College London

“How to use social media to
promote your energy research”

Dr Lata Sahonta

University of Cambridge

“How I made a start-up
company using my research”

This event is free - register for free at
<https://techniques.eventbrite.co.uk>

Submit your abstract at
energy.cam.ac.uk/cam-ies/techniques
